

La Salle Wireless

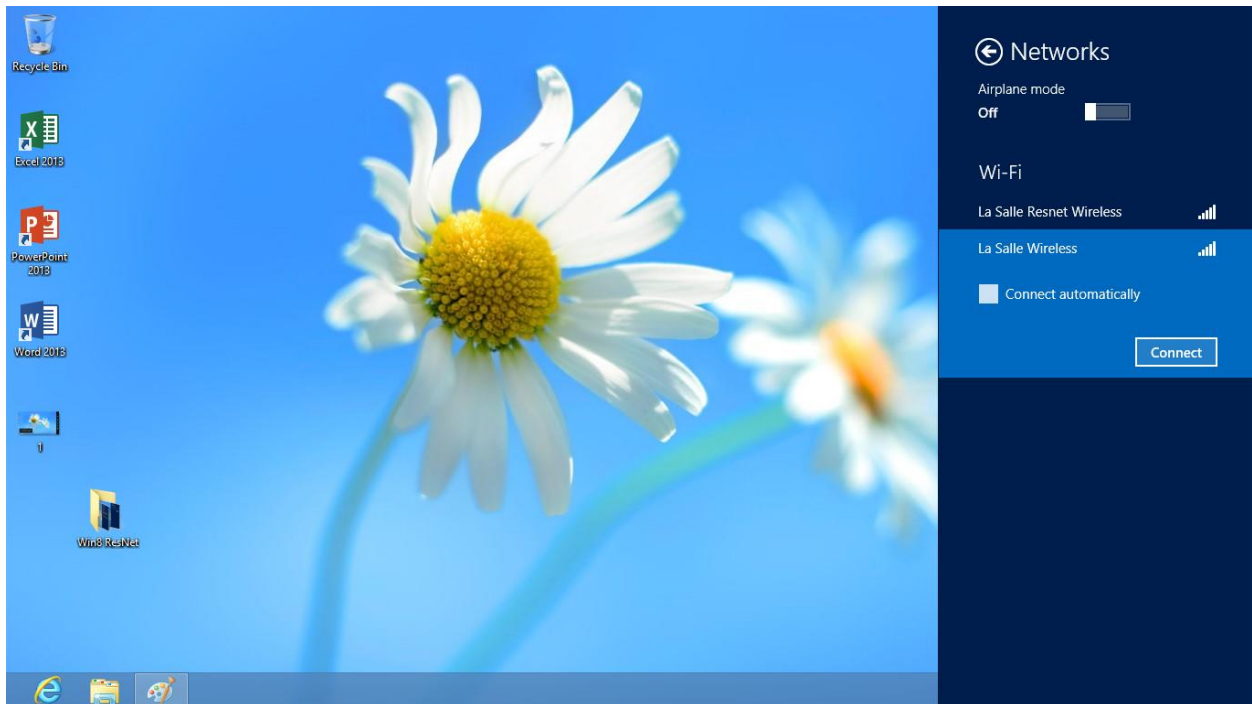

Windows 8

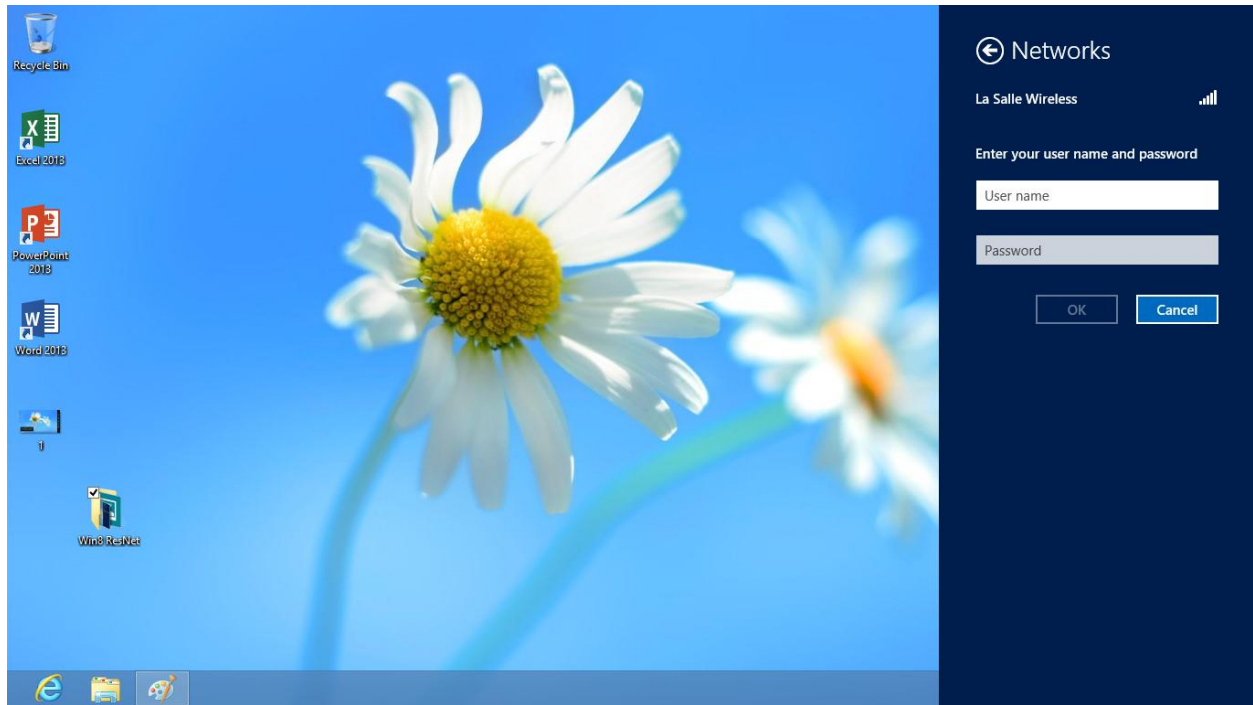

Swipe from the right side of the screen (touchscreen) or move mouse pointer to the lower right hand corner of the screen to open side bar and select "Settings"

Select the Wireless icon

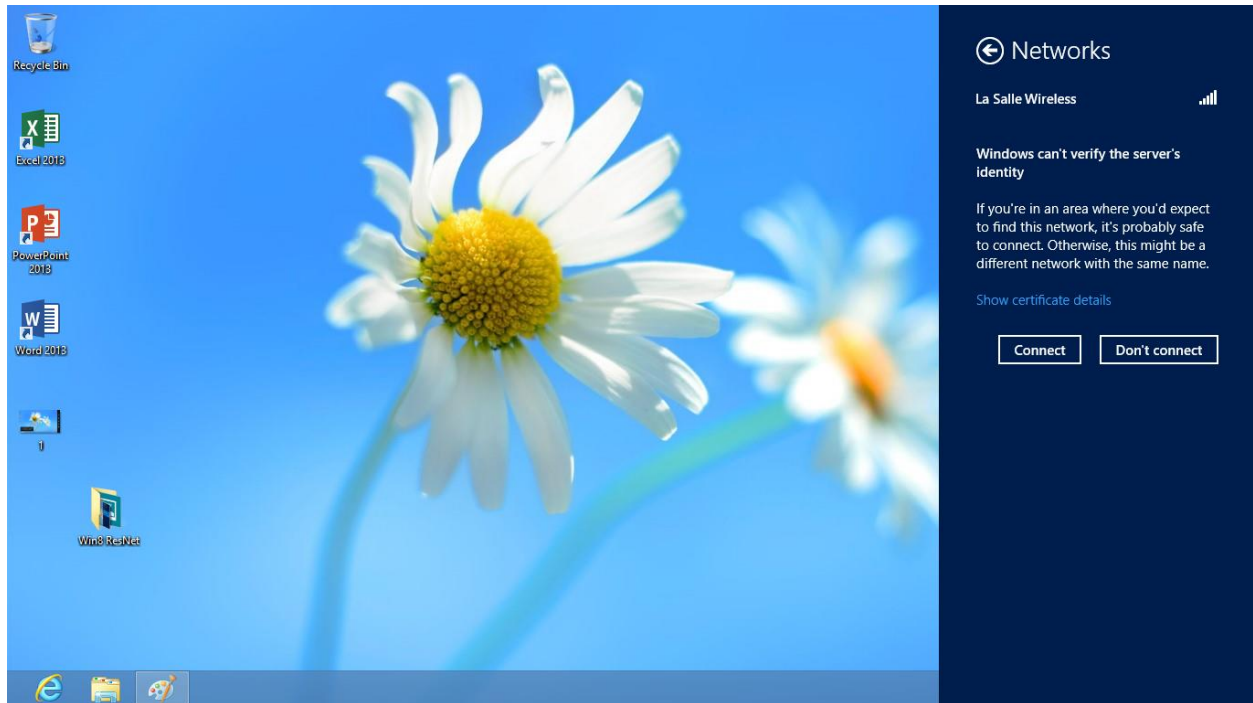

Select "La Salle Wireless" and click "Connect"

Enter your LUNA username and password and hit "OK".

This is the same username/password used to sign on to the computers in the labs and library.

You will be prompted with a security check. Click Connect to finalize the process.

You will now be connected to La Salle ResNet Wireless and you should follow the procedure to login through Cisco NAC Agent. The next time you connect to the wireless network, your computer should automatically reconnect using the username and password previously supplied.
